

Atlas Approved in Montana

October 29, 2010

Charlotte, North Carolina -- Atlas Insurance Management, a leading captive insurance management and consulting firm, today announced that it has been approved as a captive manager in the State of Montana.

Montana provides an attractive captive domicile that will appeal particularly to clients in the West. It has flexible captive legislation and insurance regulators who are knowledgeable about and supportive of the captive insurance sector.

Martin Eveleigh, Atlas chairman, commented. "Montana's insurance regulators are enthusiastic about the captive business, and we are delighted to have the opportunity to form and manage captives there. This western domicile allows us better to serve clients across the country, offering them an ever wider choice. Together with the establishment earlier this year of our U.S. headquarters in Charlotte, North Carolina, this move demonstrates our commitment to providing a full range of captive management services in the United States."

About Atlas Insurance Management -- Atlas Insurance Management, a leading independent captive manager, provides captive insurance company consulting, formation, and management services in a choice of United States domiciles as well as offshore in the Cayman Islands, Anguilla, the Bahamas, and Nevis. Owned by senior management, Atlas has no conflicts of interest with commercial market solutions.

Atlas works with all forms of captives including single parent, group, association, rent-a-captive, RRGs, and protected cell companies. It has structured and managed captive programs for all lines of property and casualty insurance, as well as life and annuity business. Captive management is its core business.
